

Aleksandr Riabkov

Web Developer/ Designer

sasharywork@gmail.com • portfolio: ryabkov.work • tg: [@sanjocheck](https://t.me/sanjocheck) • linkedin.com/in/aleksandr-riabkov • Tbilisi, Georgia. Ready to relocate.

Summary

Web developer and designer building for the web end to end, from promo pages to product interfaces. I design UI in Figma and take it through to production myself, in Webflow or in hand-written HTML, CSS and JavaScript.

Skills

Soft & Hard

Webflow Development • HTML, CSS • JavaScript • GSAP • Three.js/WebGL • GA4, GTM • API integrations • SEO optimization •
Figma & Adobe Creative Suite (Illustrator, Photoshop) • Website Design • Wireframing • Cross-browser compatibility testing • UX Research • Design Systems •
Communication Design • Collaboration & Teamwork • Attention to Detail

Experience

Relate

Creative developer / Designer

Remote / Full-time

10/2024 - Present

Full-service design studio. Strategy, Branding and Digital.

- Built and shipped 20+ marketing sites and web interfaces in Webflow, from promo landings to multi-step signup and payment flows. Handled responsive behaviour, states and edge cases the mockups didn't cover.
- Built the Slush Card waitlist for Mysten Labs. Multi-step signup with email OTP verification and Sui wallet connection, instrumented with GTM/ GA4/AppsFlyer so the funnel could be read step by step.
- Shipped product UI for HypeScribe, an AI transcription SaaS. Paywall, integrations screens and in-app flows, designed against an existing design system.
- Set up multilingual and CMS-driven sites with Weglot and Webflow CMS. Integrated Mailchimp, custom API endpoints and Cloudflare Workers.
- Wrote custom JavaScript on top of Webflow where native tools hit their limits. GSAP and ScrollTrigger motion systems, Three.js and WebGL scenes.
- Worked directly with clients and PMs in English. Defended interface decisions and turned feedback into shipped changes.

Pragmatica

Web Developer

Remote / Freelance

02/2024 - 08/2026

Full-service design studio. Strategy, Branding and Digital.

- Built and shipped Webflow sites for online course products, including landings for [Big Practice](#). Handled responsive behaviour, states and edge cases the mockups didn't cover.
- Implemented custom forms and payment flows, wiring signup and checkout into third-party services and APIs.
- Built complex scroll-driven animation systems with GSAP and ScrollTrigger. Pinned sections, staged reveals and preloaders, kept smooth on mobile.
- Handled performance and SEO across projects, from asset weight and Core Web Vitals to markup and indexing.

Also worked with: [Mysten labs](#), [Solana Foundation](#), [BabyDodge](#), [Looch](#), [Collectiveee](#), [Promtailor](#), [Flowa Global](#), [MGL](#), [Cloz](#), [Morrow](#) and a suite of other forward-thinking startups and brands.

Education

Pixel Perfect

Webflow Expert

NJUST MISIS

Bachelor's degree, Applied informatics in Design
